Notes

Welcome to first time readers. Greetings to returning readers. My name is Momoya Show-Neko. This book is a sequel, or should I say the second book of a pair, and was therefore supposed to come out shortly after the release of the first Idol M@ster book at last Summer Comiket, but is only being released now due to my work committments and some illness...

The last book unfortunately came out with extremely faint coloring, so this time I have painted the colors in more strongly. I wonder how it is going to look after printing... (Dokidoki).

It looks like the new Idol Master game will be released in February next year. The new release will include a Live Production mode, and I'm looking forward to being able to see the girls dancing well. But will that mean they remove the Business Management part I wonder? If that's the case I will be a little dissapointed, although I get enough enjoyment just watching the dance routines so maybe it will be alright.

In any case, as I am a woeful producer who can't even give good lessons, and I'm unable to raise the girl's skill levels very high, and I haven't often been able to get the group of girls I particularly like in order to watch them dancing. There's going to be more cute outfits, and I'm looking forward to meeting Makoto-chan, Iori and Miki.
